

Easy access creep

The pen design (creep area near the passageway) allows an easy access to check all litters every day

FACILITIES

- Zero confinement
- 1200 sows
- Fully slatted (rubber mat in covered creep area)

*Pen area: 4.6 m²
Piglet area 0.92 m²
Covered area: 0.65 m²

* The first pens at this farm were built in 2003. The latest recommendations for space allowance is 6.5m²

MANAGEMENT

- Straw for nest building given daily in the feed through
- No disturbance in pen if sow is resting or nursing
If the sows are disturbed, staff returns later

Farrowing rails for preventing piglets from getting crushed
