VITAMIN

01

On 28 March, Tianxin Pharmaceuticals said in the relevant platform: the company's vitamin A project is currently in the engineering construction stage. The construction site of the project is Tashan Industrial Park in Leping City. After the project is completed and put into operation, it can form a production scale with an annual output of 1,000 tonnes of vitamin A.

AMINO ACID

02

Isoleucine: Manufacturers offer between 4.25-4.3usd/kg, market demand is relatively weak, the price is at the bottom of the position, but the recent rise in soybean meal prices, the market signing slightly warmed up, more inquiries, later attention to the market signing situation.

API

03

Neomycin sulfate recent price stable upward, the mainstream factory supply is tight, the transaction price slightly upward (traded at 16.6-17.8usd / billion), the foreign trade market this side of a slight delay, the follow-up continued to pay attention to the market demand changes

FOOD ADDITIVE

04

Recently, affected by the market situation, the transaction price of mainstream manufacturers of L-carnitine HCL has stabilised to about 175 RMB/KG, and the transaction price in foreign market is about 22-23 USD/KG. It is expected that the subsequent trend of stabilisation, we will continue to pay attention to the market situation.
